EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Margo on June 9 2005.

The application has been amended as follows:

In claim 1 line 3 after "motion" the language -- , a detector --

In claim 1 at the end of line 7, after "part" the following language was added:

-- , wherein the position of the rotating part is determined by using the detector to sense the gap located on the rotating part --

Claim 8 was canceled.

This amendment added the subject matter from claim 8 into independent claim 1 in order to place this application in condition for allowance.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance:

Claim 1 was allowed because the prior art of record does not teach or render obvious the total combination, including a positioning apparatus installed inside a printer, a Scotch yoke comprising a rotating part for accepting the rotational motion from the motor, the rotating part possessing a gap to indicate the position of the rotating part, wherein the position of the rotating

part is determined by using a detector to sense the gap located on the rotating part, wherein the position of the first part is controlled by the rotational motion of the motor via the linear motion of the Scotch yoke.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
